EXPERIENCE

Full Stack Developer

Subhx Infotech

Jan 2025 – Present

Karnal, Haryana

- Leading a team of NextJs and NodeJs developers, overseeing project development from planning to deployment
- Developed and maintained full-stack web applications using Next.js, Node.js, Express.js, and Postgresql, ensuring scalable, high-performance backend services and responsive frontend interfaces.
- Streamlined team workflows through effective code reviews, technical mentoring, and sprint planning, fostering a collaborative development culture and elevating project quality standards.

PROJECTS

Ecommerce Website

Deep Learning Project

Apr 2024 – May 2024

[View GitHub Repository](#)

- Developed a full-featured e-commerce application using Node.js, Express.js, and MongoDB.
- Implemented purchasing, wallet management, returns, refunds, and coupons.
- Created an admin panel for sales and user management with analytics tools.
- Integrated Razorpay for payments and deployed the application on AWS.

Virtual Event Hosting Website (In Development)

Deep Learning Project

sep 2024 – nov 2024

[View GitHub Repository](#)

- Developing a platform for hosting and managing online events with user authentication, subscriptions, and ticket purchases via Razorpay.
- Features include event creation, profile management, and a wallet system for ticket sales and withdrawals.
- Built using JavaScript, TypeScript, Node.js, Express.js, PostgreSQL (Sequelize), React, and Redux.

EDUCATION

Full Stack Development-MERN

Brototype, Calicut

2023 – Present

BA English

University of Calicut

2020 – 2023
